60585

INDEX TO VOLUME XVI.

A.

Ammonia diffusa, 319
— marginata, 190
Agricultural Bureau, National, 47
— education, 191, 368
— fairs and cattle shows, 300
— — tents for, 258
— lectures, 114
— literature, progress of, 34
— plants, study of, 172
— societies, 116
— Society, New York State, Transactions for 1854, 378
— — Youths', 376
— statistics, 25
— suggestions from travel, 257
Agriculture, geology as connected with, 121
— how shall we improve our, 206
— important fact in, 300
— relations of chemistry to, 238, 287
— study of, 97
Almonds, earth, or chufas, 228
Ash whey, 96
American implements in France, 308
Analyses of milk, 78
Analysis of guano, 107
— human excrement, 107
— leaves, 23
— shell marl, 52
Animal foods, 226
Animals, domestic, improving, 177, 201, 233, 265, 297, 329, 361
Apple grafts, keeping, 324
— Melon, 291
— molasses and apple butter, 24
— tree bark-louse, remedy for, 99
— trees, new depredators on, 29
— — planting orchards of, 125
Apples, culture of at the west, 28, 91
— for general cultivation, 58
— keeping, 324
— new disease in, 90
— — varieties which promise well, 58
— ripening of, 282
— to prevent being wormy, 61
Apricots for general cultivation, 58
April, 129
Arbors, 59
Ashes and plaster in the hill for corn, 341
Auriculas, culture of, 95

B.

Bark-louse, ravages of the, 152
— remedy for the, 99
Barley, culture of, 144
— Salt Lake, 61
Barn, L. F. Allen's premium, 344
Bean poles, raising, 329
Bee culture, 12
— moth, remedy for, 369
Bees, habits and instincts of, 211
— hiving, 213
Beets, sugar, culture of, 74
Berberis pallida, 319
Big head in horses, treatment of, 277
Bird islands, 220
Black-knot, 61
— remedies for, 188
Black-leg in calves, cause of, 67
Blight in the pear, 314
Blind, or wolf-teeth in horses, 117
Bloody murrain, preventive of, 196
Bones and their uses, 46, 162, 229
— in the soil, 173
Books, notices of, 379
Botanical gardens, 285
Bread, ropy, and yeast fungi, 64
Budding, 133
Buff color on cotton, 291
Bugs in peas, remedy for, 243
— to keep from vines, 181
Butter, effects of temperature on the yield of, 185

C.

Cabbage, culture of, 241
— worms, to destroy, 61
Cabbages, 113
— clubbing of the roots in, remedy for, 322
— hints on transplanting, 241
— to destroy the green insect on, 241
— — worm in, 241
— to keep the fly from, 241
— to prevent from growing to "long shanks," 241
— — the ravages of the black grub on, 241
Cake, winter, 60
Calves, cause of black-leg or quarter in, 67
— rearing, 147
Canada thistles, law relating to, 323
— — to destroy, 243
Candles, making, 379
Carrots, culture of, 74
Caterpillars, to destroy, 209, 215
Cattle, 77
— American, for the Crimea, 194
— beef, price of, 176
— choked, to relieve, 276
— experiments in feeding, 98
— Galloway, 342
— Herd Book of, 52, 160
— hollow horn in, 162
— improving, 177
— — principles of, 201, 233, 265, 361
— in New Hampshire, 118
— lice on, to destroy, 80, 139
— native, improvement of, 41
— points of excellence in, 233
— rape cake for feeding, 19
— Red Durham, 53
— science of wintering, 9
— Short-horns, improved, 178
— to preserve from disease in winter, 372
— warts on, to cure, 53
Celery, culture of, 163
Cellars, manure, 115
— rat-proof, 86
Cement, broken china, to, 227
Cemeteries, rural, 221
Change not always improvement, 354
Chemical question for boys and girls, 64
Chemistry of soils, 11
— relations of, to agriculture, 238, 267
Cherries for general cultivation, 58
— new varieties which promise well, 58
Chickens, food for, 274
Chufas, or earth almonds, 228
Cider, to keep, 116
Cities, the feeding of, 73
Clearing new land, 242
Clover as a manuring crop, 340
— seed, gathering and cleaning, 161
Colts, breaking, 84
Commemorative trees, 352
Compost, leaves for, 22
Cooking, what meat loses by it, 219
Copperas as a deodorizer, 292
— — fertilizer, 196
Corn and pork, 281
— ashes and plaster in the hill for, 341
— crops, good, 378
— sweet, Stowell, 357
Cottage, a symmetrical, 54
— building, warming, &c., 311
Cotton, consumption of in England, 25
Cows, milch, feeding with sainfoin, 148
— — how to feed, 21
— summer and winter food for, 21
— what breed would you recommend, 17
Crocus, 377
Crops and prices, 278
— and the country, 196
— — season, 257
Crows, to keep from corn, 144
Cucumbers, great yield of, 117
Curculio, 188
— remedy for the, 60, 225
Currants for general cultivation, 58

D.

Dairy business in New York, 245
— management of the, 145
— produce, effects of temperature on, 185
— stock, improvement of, 361
Deep cultivation, importance of, 214
— plowing a remedy for weeds, 196
— — in sandy soil, 182
Deterioration of the soil, 121
Dietetic buds and young shoots, 226
Distillery slops, 113
Dogs and sheep, important decision, 51
Domestic animals, improving, 177
— — — principles of, 201, 233, 265, 297, 329, 361
Drainage, 83
— effects of on fruit, 250
— experience in, 218
Drain-level, 79
Dwarf fruit trees, 361

E.

Economy in time and labor, 63
— in the kitchen, 33
— of farming, 105
Education, rural, 191, 363
European farming, 364

F.

Farm, a thriving, 220
— house, design for a, 370
— life, make it attractive, 279
— two acre, 290
Farmers' creed, 24
— lawns, 243
— life, 254, 288
Farming, changes in, 303
— economy of, 105
— European, 364
— in Belgium, 18
— — Chili, South America, 142
— — Eastern Pennsylvania, 15
— — Essex Co., Mass., 49
— — Hungary, 364
— — Illinois and Wisconsin, 27
— — Minnesota, 80
— — Potter Co., Pa., 177
— — Wisconsin, 290
— tenant labor in, 44
— and farmers, 55
Farms, small, in Belgium, 18
Feeding cattle, experiments in, 98
— of cities, 73

Feeding of horses, 82
Fences and hedges, 110
— wire, 115, 195
Field seeds, quantity required per acre, 119
Filtering apparatus, 244
Flowers, 353
— culture of, 89, 155
— spring, 377
Flower seeds, saving, 320
Food consumed by an elephant, 247
— for chickens, 274
Foot-rot in sheep, remedy for, 51
Forest trees, raising, 50
Fowls, 112
Fruit, 283
— culture of, 75
— effects of drainage on, 250
— growers, important to, 29
— grow more, 376
— — Society of Western New York, 314
— in Illinois and Wisconsin, 27
— seeds, when to sow, 133
— trade, foreign, of New York, 126
Fruits, preservation of, 128
— recommended by the Am. Pom. Soc., 58
— — Champlain Valley Hort. Soc'y, 376

G.

Galls from the harness or saddle, remedy for, 50
Gardening, hints on, 151
Garden, liquid manure for the, 95
— luxuries of the, 286
— memoranda, 188
— seats, 256
— seeds, quantity required to produce a certain number of plants, 119
Gardens, botanical, 285
Garget can be cured, 20
— cured, 178
Geese, treatment of, 212
Genesee Farmer for 1856, 378
Geology as connected with agriculture, 121
Geraniums, culture of, 225
Goat, the Angora, 180
Gooseberries, mildew on, 30
Gophers, how to catch, 142
— remedy for, 113
Grafting, 87
Grafts, apple, keeping, 324
Grain and grass seed harvester, 140
Grape, Canadian Chief, 124
— culture, American, 128
— vines, bearing and pruning, 94
— wine, 96
Grapes for general cultivation in open air, 58
— — — — under glass, 58
Grasses of Oregon, 339
Grass, Fowl-meadow, 118
— Italian Rye—culture and advantages of, 81, 98
— Meadow Fox-tail, 306
— Orchard, 114
— Rough-stalked Meadow, 307
— Round-panicled Cock's-foot, 305
— seeding of lands to, 82
— Sweet-scented Vernal, 304
— wheat, &c., 115
Grasshoppers, turning to good account, 323
Greenhouse plants, summer treatment of, 192
Guano, 184
— and barnyard manure, comparative value of, 333, 355
— and its substitutes, 107
— as a preventive in yellow fever, 356
— frauds in, 241
— more, 356
Gutta percha, 216
Gypsum as a fertilizer, 80, 85

H.

Hard times, 65
Hawthorn, value of for ornament, &c., 224
Hay caps, 147
— fork, improved, 140
— stacks, ventilating, 258
Health, and its preservation, 204
Hedges, 291
— and fences, 110
— Osage orange, 89
Hemp seed, importing from Europe, 26
Herd Book, 82, 160
Hessian fly and wheat-head fly, 275
Hints for April, 131
— for housewives, 158, 226
— for November, 350
— on gardening, 151
— to purchasers of trees, seeds, &c., 221
Hogs, 259
Hollow horn in cattle, 162
Hominy, to cook, 64
Hops—cultivation, curing, and drying, 120
Hop trade in Wisconsin, 26
Horse, anatomy of the, 297, 329
— distemper, cause and treatment of, 21
— musculer system of the, 48
— points of excellence in the, 329
— provender, 323
— shoes and shoeing, 349
Horses, big-head in, treatment of, 277
— feeding, 83
— in Maine, 117
— old, 35
Horticultural discussions, 314
— quackery, 240
— Society, Genesee Valley, 93
— — — exhibition, 323
Horticulture in Illinois and Wisconsin, 27
— progress of, 373
Horticulturist, the, 322
House plants, 255
Hyacinth, 377

I.

Ice-houses, keeping ice, &c., 341
Implements, American, in France, 308
Improvement of worn out land, 132
Inarching plum and pear trees, 163
Insects, to preserve meat from, 209
Italian Rye-grass—culture and advantages, 81, 98
Ivy as a parlor plant, 287

J.

Jelly, cranberry and rice, 64
— currant, 33
Johnston, Prof., death of, 355

K.

Kitchen, economy in the, 33

L.

Labor, economy in, 63
— tenant, 44
Lawes, J. B., vs. Liebig, 238, 267
Lawns, 243
Leather scrapings as manure, 380
Leaves, analysis of, 23
— for compost, 22
Lectures, agricultural, 114
Lee, Prof., 177
Lemon syrup for a cough, 96
Letter from Chili, South America, 142
— — Jay Co., Ind., 52
— — Minnesota, 80
— — Oak Hill, 129
— — Oregon, 374
— — Pennsylvania, 115
— — Virginia, 83
Lettuce, to keep, 140
Lice on cattle, to destroy, 80, 139
Liquidambar styraciflua, 253
Liquid manure, application of, 137
— — converted into milk, 172
— — for the garden, 95

M.

Magnolias, 317
Manure, barnyard, and guano, comparative value of, 333, 355
— bones as, 46
— cellars, 115
— for meadow land, 67
— leather scrapings as, 380
— liquid, application of, 137
— — converted into milk, 172
— — for the garden, 95
— saving and applying, 162
— true value of, 108
Manures, 152
— frauds in, 241
Maple sugar, making, 42
Marling, 175
Meat, to preserve from insects, 209
— what it loses by cooking, 219
Mildew on gooseberries, 30
Milk sickness, 229
Millet, and its culture, 111, 181
Minute pudding, 96
Mock duck, 96
Mowing machine, Russell's, 182
— machines at the Paris exhibition, 304
Muck, value of, in composts, 309
Mysore hexacentre, 188

N.

Narcissus, 377
Nature, a touch of, 287
Nectarines for general cultivation, 6
Notes by S. W., 303, 340, 367
— of travel, 289

O.

Oil, olive vs. lard, 64
Onions, hints on raising, 203
Orchard culture, 33, 167
— grass, 114
— where shall I plant my, 73
Orchards of apple trees, planting, 125
Osage Orange hedges, 89

P.

Pansies in pots, 92
Parsnip, Guernsey, 301
Pea bug, remedy for, 178, 243
— Japan, 47
— Southern field, culture and value of the, 169
Peas, sowing in circles, 198
Peaches for general cultivation, 54
Peach worm, remedy for, 94
Pear blight, 234
— Easter Beurre, 30
Pears, culture of, in Northern Indiana, 247
— for cultivation on quince stock, 38
— — general cultivation, 5
— new varieties which promise well, 38
— ripening of, 225
Plants and flowers, culture of, 153
— cells and circulation of, 139
— greenhouse, summer treatment of, 192
— house, 254
— study of, 172
Plaster of Paris as a fertilizer, 80, 85
— Vienna, 229
Plowing land, 372
Plum trees, black knot on, 62
— — planting near water a remedy for the curculio, 60
Plums for general cultivation, 58
— new varieties which promise well, 58
Pomological convention at Burlington, Iowa, 332
— Society of Western New York, 97
Pork and corn, 287
Potatoes, early, to raise in the garden, 256
— large and small, for seed, 25, 116
— large yield of, 200
— sweet, culture of, 85
— to keep from rotting in pits and cellars, 274
Potato planter, 142
— rot, 362
Poultry Association, Northampton Co., Pa., 112
Premium barn, L. F. Allen's, 344
Preservation of fruits, 128
— — trees, 193
Prices of flour for twenty years, 231
Protection, trees for, 56
Provisions, prices of, 55
Pruning, 59, 94
Pudding, minute, 96
— real English plum, 64
Pulverization of soils, 25
Pumpkins, large yield of, 323

Q.

Quinces, to preserve, 96

R.

Rabbits, fancy, 321
Rain—evaporation and filtration, 277
Rape, 370
— cake for feeding animals, 19
Raspberries for general cultivation, 58
— new varieties which promise well, 58
Raspberry, the, 87
Rat-proof cellars, 56

Rats and mice, to destroy, 173
— effectual method for destroying, 18
Reaping machines, 259
— — at the Paris exhibition, 308
Recipe for cementing broken china, 227
— — cooking asparagus, 157
— — — beets, 157
— — — butter beans, 158
— — — cucumbers, 158
— — — English peas, 64
— — — hominy, 158
— — — Irish potatoes, 158
— — — salsify or vegetable oyster, 158
— — — snap beans, 157
— — — spinage, 158
— — — squash, 158
— — caring foot rot in sheep, 51
— — — galls in horses, 50
— — — rheumatism, 220
— — — ringbone, 61
— — — warts on cattle, 53
— — — wasp stings, 292
— — keeping cider sweet, 116
— — making alum whey, 96
— — — apple jam, 158
— — — Bologna sausages, 168
— — — bread from grown wheat, 324
— — — cranberry and rice jelly, 64
— — — currant jelly, 33
— — — furniture polish, 158
— — — grape wine, 96
— — — lemon syrup for a cough, 96
— — — minute pudding, 96
— — — mock duck, 96
— — — real English plum pudding, 64
— — — whiskey plums, 96
— — — winter cake, 60
— — preserving quinces, 96
— — removing paint from a coat, 96
— — — stains upon cotton or linen, 227
— — — foul smells, 292
— — washing silver, 227
Red root, 183
Rheumatism, cure for, 220
Ringbone, cure for, 61
Root crops, culture of, 74, 275
Roses, collections of, 151
— hardy, 150
Rub softly, 130
Rural cemeteries, 221
— education, 191
Rye grass, Italian, advantages of, 81, 98

S.

Sawdust, advantages of, 132
Season, prospects, &c., 159
— the, 228, 257
Seats for the garden, 256
Seed drill, 143
— harvester, 140
Seeding of lands to grass, 82
— — in autumn, 281
Seeds, fruit, when to sow, 133
— field, quantity required per acre, 119
— garden, quantity required to produce a certain number of plants, 119
— how to prove and prepare for planting, 208
Seeds, saving, 320
Shade tree, a new, 253
— trees, 88
Sheep, 260
— and dogs—important decision, 51
— blindness in, causes of and remedies for, 161
— foot-rot in, remedy for, 51
— French merino, superiority of, 16
— from Vermont to Virginia, 35
— husbandry, Canadian, 143
— in Connecticut, 117
— raising and wheat-growing, comparative profits of, 14
— show, national, 160
Shell-marl, analysis of, 52
Shelter, trees for, 56
Shoeing horses, 349
Silver, washing, 227
Smut in wheat, to prevent, 213
Societies, agricultural, 116
Soil, alarming deterioration of the, 121
Soils, chemistry of, 11
— power of different, to retain water, 35
— pulverization of, 25
— study of, 174
Stains upon cotton or linen, to remove, 227
Starch, 338
Statistics, agricultural, 25
Steam engine, new rotary, 98
Stock, experiments in feeding, 98
— improving, 177
— — principles of, 201, 233, 265, 297, 329, 361
— rape cake for feeding, 19
— sale of Kentucky, 26
— science of wintering, 9
Strawberries, 125, 246
— for general cultivation, 58
— new varieties which promise well, 56
Strawberry culture, 154
Straw stacks, ventilating, 258
Stump puller, 281
Sugar, maple, making, 42
Sulphur, value of, 24
Summer houses, 283
Swamp muck, value of in composts, 209
Sweet corn, Stowell, 357
— gum tree, 253
— potatoes, culture of, 85

T

Tenant labor, 44
Tents for agricultural fairs, 258
"The old woman," 96
Theory and practice in wheat culture, 336
The two farmer boys, 288
Thistles and weeds, to destroy, 274
Thoughts and feelings, 33
Timber, cutting for fuel, 35
— preserving, 360
— raising, 50
Tomatoes, early, 93
Tree planting, 32, 124, 375
Trees, commemorative, 352
— for protection, 56
— plant, 376
— preservation of, 193
— seeds, &c., hints to purchasers of, 221
Trees, shade, 88
— treatment of, after planting, 187
Turkeys, fattening, 25
Turnip culture, 207, 237

U.

United States, resources of the, 23

V.

Vegetable physiology, 138, 283
Vegetables, 226
— and their cookery, 157
Ventilating hay and straw stacks, 258
Vines, to keep bugs from, 181

W.

Wardian cases, 255
Warts on cattle, to cure, 53
Wasp stings, cure for, 292
Water, hard and soft, 53
— pipes, 290
— power of different soils to retain, 35
— pure—filtering apparatus, 244
— raising, 324
Weather, notes on the, 58, 187
Weeds and thistles, to destroy, 274
— injurious to the wheat crop, 183
— usefulness of mowing, 178
Wells, freedom from danger in descending, 280
What shall I study, 97
What shall our boys study, 358
Wheat, a semi-tropical plant, 215
— culture, theory and practice in, 336
— depth to sow, 122
— grass, &c., 115
— growing, and sheep raising, comparative profits of, 14
— — in Iowa, 161
— — in the southern part of Western New York, 161
— grown—wet harvest, 258
— head fly and Hessian fly, 275
— to prevent smut in, 213
Whiskey plums, 96
Whitlavia grandiflora, 100
Willow peeling machine, 259
Willows, how to cut, 127
Wind-mill, Halladay's, 148
— Vermont, 367
Wine, grape, 96
Winter, 337
— cake, 60
— work, 53
Wintering live stock, science of, 9
Wire fences, 115, 195
Women, a few words to, 62
Woodland, mismanagement of, 290
— save your, 45
Worms, apple, to destroy, 61
— cabbage, to destroy, 61
— peach, to destroy, 94

Y

Yeast fungi and ropy bread, 64
Yuccas as hardy ornamental plants, 284

INDEX TO ILLUSTRATIONS.

DOMESTIC ANIMALS.

Alderney or Jersey cow,..... 77
Fancy rabbits,..... 321
French merino sheep,..... 17
Galloway cow,..... 343
— heifer,..... 343
— ox,..... 342
Short-horn cattle,..... 179

FARM AND OTHER BUILDINGS.

Allen's premium barn:
— front perspective view,..... 344
— rear " " 345
front elevation of plan,..... 346
ground plan,..... 347
Design for a small cottage,..... 313
— — farm house,..... 370
Ground plan of do.,..... 371
Plan for a cheap cottage,..... 312
Symmetrical cottage,..... 54
Ground plan, do.,..... 55
Second floor, do.,..... 55

IMPLEMENTS AND MACHINES.

Drain level,..... 79
Filtering apparatus,..... 244, 245
Grain and grass seed header and harvester,..... 140
Improved hay fork,..... 141
Russell's mowing machine,..... 182
Stump puller,..... 281

PLANTS AND FLOWERS.

Acacia diffusa,..... 319
— marginata,..... 190
Berberis pallida,..... 319
Cock's-foot grass,..... 306
Crocus,..... 377
Dwarf apple,..... 351
— cherry,..... 351
— pear,..... 351
Flower, fruit, and stem of Percha tree,.. 217
Giant ivy,..... 287
Hyacinth,..... 377
Liquidamber styraciflua,..... 253
Leaves and fruit of do.,..... 353
Magnolia tripetala,..... 318
Flower and fruit of do.,..... 318
Meadow fox-tail grass,..... 307
Mysore hexacentre,..... 153
Narcissus,..... 377
Oregon service berry,..... 374
Rough-stalked meadow grass,..... 307
Sweet-scented vernal grass,..... 305
Whitlavia grandiflora,..... 190
